

CALIFORNIA DREAMING

In the hands of DISC Interiors, a contemporary residence was designed for a family passionate about contemporary art, exquisite interiors, as well as the ease of California living. For the entry way, DISC commissioned a bronze chandelier by Frederik Molenschot, which serves as the introduction for this artistic residence in Los Angeles. An art deco inspired entry table of green marble, created and crafted by artist Castilleja connects with the dining room's custom celadon silk wallcoverings by De Gournay, and the brass and glass light fixture by Ozone, handcrafted in Paris.

The residence's earth tone colors are inspired by art deco and the natural world. A starburst patterned rug by Christopher Farr energizes the living room area, accentuating the furniture and a transcendent painting by John Knuth. Throughout the home, muted paint colors are combined with materials of marble, travertine, onyx, brass, and textured fabric, silks, and woven wallcoverings. Interior architectural detailing and construction for this residence are by Fountainhead HOMES.

Krista Schrock and David John Dick are the founders of DISC Interiors and now work on both coasts. Their interiors and furniture design studio, as well as showroom are located in Los Angeles. DISC Interiors strives to create homes of calibrated simplicity that balance the push and pull of modern life, address a sense of place and persons rather than any period or style. The projects designed by DISC Interiors represent a one-of-a-kind combination of traditional details and contemporary chic. Their first book, "Portraits of Home" was published by Rizzoli in 2021. The DISC Collection, a collection of furniture designed by the studio is crafted in Los Angeles by artisans and craftsmen, and playfully experiments with proportion and unique detailing by the hand.
